SCHOOL OFFER

**2021-
2022**

Elementary & High Schools, Cegeps and Daycare Centers

ABOUT US

Founded in 2017, Musée Ambulant is a non-profit cultural and educational organization traveling all over the country, offering a unique experience of artistic discovery adapted to various audiences. Breaking down geographical, technological and physical barriers between art and its publics, our aim is to bring contemporary art to you and to your community, wherever you are.

Through different arts outreach activities, we promote new ways to experience the visual arts. Outside of traditional art institutions, by reaching out to the public, we offer exhibitions and artistic workshops that enable a rich and embodied experience through direct contact with artworks.

OUR ACTIVITIES

2021- 2022

THE BIG EXHIBITION

An exhibition of contemporary art in your school!

Under its colorful marquees, **Musee Ambulant** presents a selection of artworks by professional artists and artisans from across the country. Interactive tours as well as creative workshops are offered, allowing students to experience a rich and fun encounter with contemporary art within the walls of the school!

**Requires an exclusive access to a gymnasium or a large room for the duration of the exhibition's stay. For a stay of three days or more, an open event can be organized to share this exhibition with the community. Outdoor activity possible.*

SECRETS OF THE WOODS

An augmented reality art journey uncovering secret stories!

Following a trail of silk printed artworks installed in the school or outdoors, students will be surprised to discover augmented reality animations by **Marie-France Tremblay**, uncovering the forest's hidden stories.

A paint pen creative workshop will then allow your students to imagine their own!

**Requires high-speed internet access (through wifi or mobile coverage); can be installed inside the school or outdoors (school yard or nearby natural area).*

UNDER THE CATKINS

When Art and Nature meet!

Adapted to both indoors and outdoors, *Under the Catkins* is an artwork to be discovered standing, seated or even lying down! This installation of ceramic sculptures is our mobile version of a monumental creation by well-known Huron-Wendat artist **Ludovic Boney**. This versatile proposal invites students to put their own creativity into practice by shaping individual sculptures (in clay or ice) and creating a collective work inspired by the surrounding ecological environment.

ARROWHEAD SASH WORK

Creating ties with a rich heritage !

Inspired by master artisan **Catherine Lessard's** contemporary arrowhead sash works, students will learn about this unique technique and its patterns, fruit of the rich encounter between French, English and First Nations' traditions. Sparking conversation about cultural diversity and the transmission of intangible heritage, this new Musée Ambulant activity weaves meaningful connections with social issues through art.

VIEWS FROM THE FIELDS

Reflecting on agricultural heritage through photography

Through the discovery of a series of photographs by **Meriol Lehmann**, our team will lead a discussion on various historical and socioeconomic changes that affect rurality, a central theme in the artist's work. Trans-disciplinary and designed to support a creative and critical use of new technologies, a digital collage workshop will bring students to use archives photographs and engage with issues pertaining to visual arts, history and civic engagement.

Project available in high schools and Cegeps only.

THE TELEPORTER

Art that travels between the virtual and the real world!

By exploring through touch a series of small sculptures by **Marie-Fauve Bélanger**, students will live a sensory experience of artistic discovery and will then create combining modeling and 3D-scanning. Thanks to our portable 3D scanning device, nicknamed the *Teleporter*, participants will learn more about digital 3D technologies and experience a unique creative workshop, blurring the lines between Art and Tech!

GIF animations of the students' creations and 3D-printable files will be produced, for printing through school's 3D-printers or Musee Ambulant's (additional fees apply)

RATES AND TERMS

\$500 per group (+ tx)

Greater Quebec City area: a minimum of 3 groups per day

Other regions: a minimum of 4 groups per day / *A minimum of days may be required*

Available in **French** and **English**, throughout Quebec province, our projects are adapted to all audiences and contribute to the development of the **Appreciate** and **Create** competencies of the QEP! Suggestions for educational reinvestment are offered for each activity as well as a turnkey alternative solution in the event of school closures due to the pandemic.

Musee Ambulant's activities are eligible to the **Cultural Workshops in School** of the Culture in the Schools program as well as **Artist Inspire grants (AIG)** from ELAN. Additional discounts may apply depending on the project or the number of classes booked.

For more information or to book a Musee Ambulant activity in your school, please contact us at reservations@museeambulant.com
